

Aldrin Sanes

Data & Reporting Specialist, building toward software development

Negros Oriental, Philippines · Remote | aldrin.sanes@gmail.com | github.com/AldrinS13 | linkedin.com/in/aldrin-sanes-188865209

SUMMARY

Data and reporting specialist with more than ten years in BPO workforce management and healthcare operations. I build the trackers, audit tools and dashboards that teams use every day, mostly in Google Sheets and Apps Script, and I trace reporting errors back to their root cause. I have trained workforce management teams in five regions and written SOPs adopted by every WFM employee in my former organization. I am now learning JavaScript, React and React Native to build these tools as software.

EXPERIENCE

Feb 2025 – Sep 2026 **Data, Reporting & Admin Analyst**

1 yr 8 mos Healthcare company · Remote

- ▶ Built a form-driven time log system in Google Forms, Sheets and Apps Script for about 50 health coaches. It has processed more than 11,000 entries and gives each coach a live personal log.
- ▶ Built an audit tool that reconciles coach time logs against the official care-platform record. In early tests it matched over 97% of entries automatically, so QA reviews only the exceptions.
- ▶ Built and launched an IT helpdesk ticketing system with SLA tracking and two live dashboards, using formulas only. It was my first fully finished project.
- ▶ Kept daily records accurate, reviewed data for errors, gaps and unusual patterns, and reported findings to the right team members.
- ▶ Used AI tools (Claude, Gemini, ChatGPT, Perplexity AI) to speed up reporting and analysis, with accuracy checks on every output.

Mar 2022 – Jan 2025 **WFM Senior Training Supervisor**

2 yrs 11 mos Teleperformance · Remote

- ▶ Designed and delivered training programs for workforce management teams in the US, Canada, India, LATAM and the Philippines.
- ▶ Created standard operating procedures adopted by all WFM employees, improving consistency across business lines.
- ▶ Built training materials, learning modules and development frameworks, and hosted roadshows to raise engagement.
- ▶ Prepared executive presentations for quarterly and annual business reviews, and proposed performance improvements with senior leadership.

Dec 2020 – Feb 2022 **WFM Senior Analyst, Training Specialist**

1 yr 3 mos Teleperformance · Metro Cebu · Hybrid

- ▶ Mentored analysts and real-time analysts on forecasting, scheduling and reporting.
- ▶ Ran performance audits and knowledge checks to catch errors and keep quality high.
- ▶ Supported leadership in transitioning new accounts with workforce plans and training.

Dec 2016 – Nov 2020 **WFM Real-Time Analyst**

4 yrs Teleperformance · Metro Cebu · On-site

- ▶ Monitored schedule adherence, service levels and KPIs in real time and acted before problems grew.
- ▶ Worked with operations and support teams on attendance, shrinkage and productivity.

Nov 2014 – Nov 2016 **Customer Service Representative**

2 yrs 1 mo Teleperformance • Metro Cebu • On-site

- ▶ Handled inbound and outbound calls for a magazine subscription account.
- ▶ Exceeded sales and customer satisfaction targets, and was promoted into workforce management.

SKILLS

DATA & REPORTING	Google Sheets (FILTER, QUERY, INDEX/MATCH, ARRAYFORMULA, COUNTIFS, SUMIFS), Excel, regex, dashboards, reconciliation and audits, data quality checks
AUTOMATION	Google Apps Script (JavaScript), Google Forms, time-based triggers, script locks, FormMule
